AT GARDNER LAKE Two Batches Released There on Tues day-Talk of Closed Season.

Following applications which had been steered inrough the right channels by the influence of Congressman Edwin W. Higgins, two batches of small-mouthed black bass fingerlings were received here on Tuesday morning, consigned to John M. Lee and John D. Moulton. The fish came from the government hatcheries at St. Johnsbury, Vt., and arrived in firsteless share after 24 hours on the

class shape after 24 hours on the The fingerlings were to be released in Gardner lake and to expedite their transportation thither, the A. C. Swan company kindly contributed an auto-mobile in which the two cans of fish were taken to the lake by Irving Wal-kinson of the garage and Mr. Lee kinson of the garage and Mr. Lee. They were released at a point near Mr. Watkinson's cottage, where the rocky conformation of the lake bottom gave them the best chance for protection from larger fish. In one of the cans all the fish were found alive when released and in the other can there were only three dead.

This is the first stocking in recent years with fingerlings, although a number of batches of bass fry have been released in the lake within the last few years.

A number of those most interested in fishing in the lake are talking of the advisability of establishing a closed season for two or three years after the lake has been thoroughly restocked. There is also a proposition to limit the number of fish to be taken in a day by a fisherman. Something like one or the other, or perhaps both of these plans, needs to be done to maintain bass fishing at the lake, it is claimed, since the number of cottageds has grown in the past few years to a considerable exten and there years to a considerable exten and there is more fishing done than ever before.
